Highlights

Unique OneBlade Technology

OneBlade has a revolutionary technology designed for facial grooming. It can shave any length of hair. Its dual protection system – a glide coating combined with rounded tips – makes shaving easier and comfortable. Its shaving technology features a fast-moving cutter (12000x per min) so it's efficient - even on longer hairs.

Innovative 360 Blade

The innovative 360 Blade can flex in all directions to adjust to the curves of your face. The design enables constant skin contact and control. Easily trim and shave hard-to-reach areas — with few strokes and great comfort.

Trim away

Unique open comb design for an efficient trim without clogging and interrupting your routine - even on long and thick hair.

Shave it off

OneBlade does not shave as close as a traditional blade - so your skin stays comfortable. Go against the grain and shave off any length of hair easily on your face or body. Includes two blades - one for face, and one for body.

Dual-sided blade

OneBlade follows the contours of your face, allowing you to easily and comfortably trim and shave all areas. Use the dual-sided blade to style your edges and create clean lines by moving the blade in any direction.

Click-on skin guard

Attach the skin guard for an extra layer of protection on sensitive areas.

Click-on body comb

Attach the body comb (3 mm) for an easy trim in any direction.

USB-A charging

Can be charged at home or on the road, perfect for your daily routine and for travel.
